

Shootout

The Shootout is the final HMGA event of the year. It is an individual, handicapped, stroke play event.

All players tee off hole #1 in one large group. The hole is played as normal, and after all players have finished the hole, the player(s) with the worst score to their handicapped par are eliminated. The remaining players continue to hole #2 and repeat the process. This continues until only one player is left standing.

All other normal HMGA rules apply.
